Unrest and dissatisfaction at home breed antagonisms abrosid. The nation happy and contented within its borders is never a monace to neighboring haltions. Its chief danger lies in not being able to protect fissif signing the disconstance of other nations, and nothing contributes more to beane abroad than pence at home. Often in the past has a nation gone to war or been driven into war by reason of informat discontent, compelling it, as it were, to choose war without as the lesser cut in order to aver travolution within its borders.

the Pope, from the throne, addressed a simple prayer and delivered a short allection.

The Pontiff dealt especially with the struggle in France, which, he said, was particularly painful to him, as he loved that "most noble nation, whose sorrows and joys I consider as my own instead of being those of her French rulers, who after arbitrarily denouncing the concerdat, violently despoiling the church, and failing to recognize the ancient and true glory of the country, tried to uproot the remains of religion by committing all kinds of excesses, even those most repugnant to French politicess, violating every public and private law and custom. In so doing, they caluminated the episcopacy and elergy, tried to separate them from the Holy See, and purposely utilized the national institutions to further their anti-religious war, so as to be able to accuse the Holy See of being in opposition to French, popular institutions, which in reality were always recognized and respected."

Mrs. William Thaw contracted for three large touring cars. The seller was an agent for a large French manufacturer, and the machines were to be turned over to the purchaser in Paris within sixty days.

The cars: were intended to be used by Mrs. Thaw and a party, including Harry's K. Thaw and his wife. So confident were the Thaws that Harry would be acquitted that they went ahead with all arrangements for a trip to Europe, where they would take a long auto tour throughout France and Italy. With this trip in ylew the autos were purchased.

Now the trip is off unless Thaw gets out on ball, for friends of the family here say Mrs. William Thaw and Mrs. Harry Thaw will not leave New York so long as Harry remains in prison.

At the time Mrs. Thaw's agent contracted for the cars a representative of William Thaw third also purchased a machine from the same dealer, to be delivered with the other cars. It was his intention to become a member of the touring party, William is now said to be on his way home from New Mexico, where he has been on a hunting trip.

The telegram adds that both cities were completely destroyed. In governmental circles the report is not credited. It is admitted that both cities were severely damaged but it is not Pope Was Much Pleased.

Continuing, the Pope said he was much pleased with the splendid concord shown by the French bishops and clergy, who remained faithful to the Holy See, hoping for better days for France and for the church. He was confident they would not cease to do their sacred duty and work for the benefit of so beloved a people, adding:

"To hatred they will oppose love, to error truth, and to insults and maledictions forgiveness. I pray God to end this persecution of religion and permit the church to reacquire her fiberty. of Republic.

CITY OF MEXICO, MEX., April 15.—
There were no deaths in Mexico City, and beyond damaged plaster and cracked and fallen walls, the property loss will be insignificant. Owing to the long duration of the shock this is considered as remarkable and is only accounted for by the peculiar swell-like motion of the earthquake, which was regular and from east to west. The Federal Telegraph office in this city has informed the Associated Press that the carthquake has interfered with the working of the wires in all parts of the republic south of a line drawn from Acapulco, on the west coast, to the City of Tampico, on the Guif coast.

From messages received at the telegraph office here up to noon it appears that the entire southern half of the republic, including the lower country and the "Mesa" belt felt the shock.

Messages from as far north as San Luis Potosi and as far south as the city of San Juan Bautista, in the State of Tabasco, reports that the shock was felt in varying degrees.

But a no place up to date has a loss of life or great destruction of property been reported, except in the State of Guerrero.

Alderman Dabney amended the resolution appropriating \$1,000 for the use of the Mayor in entertaining visiting officials and other distinguished guests during the exposition, so as to make the sum available therefor \$1,500, and providing for a committee of three from each branch of the Council, including the president of each body, to act in conjunction with the Mayor in extending official hospitality. This will be recommended to the Council. Mr. Dabney will also offer in the Load Wednesday night a resolution giving the Mayor and committee the use of the city tug, when not otherwise engaged, for the purposes of entertaining the official visitors and showing them the harbor and historic spots near by. The Pollard resolution, appropriating \$2,500 for a new and complete census of Greater Richmond, was recommended to the Board to-morrow night.

The committee held a brief executive session and rose.

The proposition came up in the form of a resolution offered by Mr., Gilman, chairman of the subcommittee which has been considering the matter. It is proposed to light Broad Street from Adams to the City Hall, Seventh and Eighth Streets from the Byrd Street Depot to Broad Street; the streets adjacent to the wharves; Main Street from the passenger station to Fifth Street; Fourteenth Street from the Southern Railway station to Main Street; extra lights around the Lee Monument. Provision is also made for illuminated signs.

The committee recommended that the salary of the weighmaster and assistant foreman of the Gas Works be increased from \$2.70 to \$3.00 per day.

An increase of the salary of the bookkeeper at the Gas Works be increased from \$2.70 to \$3.00 per day.

was taken other than viewing the territory.

On another afternoon the same committee and officials will visit the annexed portion of the Bast End and inspect that also, after which it will get down to the important work before it. It is expected that the work of providing sewerage, water and gas will be begun just so soon as the preliminary surveys can be made, and the plan is to expedite these surveys by employing several engineering parties to work simultaneously. In short the committee is endeavoring to do its work thoroughly and systematically, and yesterday's tour was in no sense a junket.

sioned discussion of the vexed question of an emergency hospital or new negro almshouse building, the Committee on Relief of the Poor last night adopted both, or, rather, ordered steps taken for the almshouse construction, and adopted a resolution committing the committee,

This style of argument is rather novel in councilmanto circles, and particularly in committees, and is a procedent which, if followed, will lead to considerable expenditure for printing.

Last night's meeting was not particularly stormy, but there was argument and colloquy sufficient to make it characteristically lively, and to maintain the reputation of this as an argumentative body. At times Chairman Gunst presided, and at other times Subchairman J. A. Hobson presided, and the two alternated in the chair so frequently that Mr. Satterfield, the humorist of the body, was bewildered to know whom to address, Mr. Gunst being seated at one end of the table, and Mr. Hobson at the other.

Go Over It Again.

Mr. Hobson offered the resolution directing the Subcommitte on Plans for the Negro Almshouse to secure such modifications as will bring the estimated cost within the aviiable appropriation of \$56,000. This was adopted with little objection, and thus opens up again the situation as it existed three or four months age. Plans have been asked for secured, modified and asked for ngain, with the result that the bids exceeded the estimated cost and the amount available. All this will be gone over again.

Dr. E. G. Williams offered a resolution instructing the City Attorney to prepare an ordinance providing for an appropriation of \$125,000 for the purchase of a central site for the future construction of an emergency bospital. This resolution was finally adopted by a vote of 5 to 2, Messrs, Gunst and Wiltshire votting "no." It merely commits the Council, If it adopt the resolution to the emergency hospital plan, the appropriation to come out of the 103 budget.

Mr. Gunst affectared that he was opposed to the resolution, since there was an money from which the appropriation proposed could be secured until next year. He declares that he would vote against it, though favorable to an emergency hospital at the proper time.

Much routine business was disposed of, and several subsommittees were named to discharge specific functions. A communication from the Health Officer was read, calling attention to cortain musiances in the nature of lack of proper drainage, This went to a subcommittee.
